Independent Auditors' Report

Board of Finance Town of Burlington, Connecticut

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Burlington, Connecticut, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town of Burlington, Connecticut's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Burlington, Connecticut, as of June 30, 2021 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As discussed in Note 8, during fiscal year ended June 30, 2021, the Town of Burlington, Connecticut adopted GASB Statement No. 84 *Fiduciary Activities*. As a result of the implementation of this standard, the Town reported a restatement for the change in accounting principle. As further discussed in the note, the Town also corrected various misstatements. Our auditors' opinion was not modified with respect to these restatements.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, and the pension and OPEB schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Burlington, Connecticut's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2022 on our consideration of the Town of Burlington, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Burlington, Connecticut's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Burlington, Connecticut's internal control over financial reporting and compliance.

Management's Discussion and Analysis June 30, 2021

As management of the Town of Burlington, CT, we offer readers of the Town of Burlington, CT's financial statements this narrative overview and analysis of the financial activities of the Town of Burlington, CT for the fiscal year ended June 30, 2021.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the Town of Burlington, CT exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$26,653,108 (net position). Of this amount, \$13,168,892 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors. Restricted net position of \$1,145,496 is for various programs such as the substance abuse prevention program, small cities program, historic preservation, Food and Fuel Assistance, Recreation, Tavern Day and the dog fund.
- The government's total net position, which is determined using the full accrual basis of accounting, increased by \$1,495,779. The increase is primarily attributable to the collection of back taxes and the percentage of current year taxes collected remaining strong.
- As of the close of the current fiscal year, the Town of Burlington, CT's governmental funds reported combined ending fund balances of \$13,882,846, an increase of \$910,970 in comparison with the prior year. Of this amount, \$6,206,004 is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$6,206,064 or 16% percent of total General Fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the Town of Burlington, CT's basic financial statements. The Town of Burlington, CT's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Town of Burlington, CT's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all the Town of Burlington, CT's assets, and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator whether the financial position of the Town of Burlington, CT is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position is changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., earned but unused vacation leave).

Management's Discussion and Analysis June 30, 2021

Both of the government-wide financial statements distinguish functions of the Town of Burlington, CT that are principally supported by intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town of Burlington, CT include education, public safety, general government, library, highway, sanitation, health and welfare, and recreation.

The government-wide financial statements can be found on pages 11-12 of the town's financial statements.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Burlington, CT, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the Town of Burlington, CT can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town of Burlington, CT maintains twenty-two (22) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund.

The Town of Burlington, CT adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 13-16 of the town's financial statements.

Proprietary Funds. The Town maintains two proprietary funds. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water Fund and Operation of Senior Housing.

The basic proprietary fund financial statements can be found on pages 17-19 of the town's financial statements.

Management's Discussion and Analysis June 30, 2021

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town of Burlington's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 20-21 of the town's financial statements.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 22-55 of the town's financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town of Burlington, CT, assets exceeded liabilities by \$26,653,108 at the close of the most recent fiscal year.

A portion of the Town of Burlington, CT's net position (1.7% percent) represents net position restricted for substance abuse prevention, small cities program, dog fund, Food and Fuel Assistance, Recreation and Tavern Day. The remaining balance of *unrestricted net position* (\$13,168,892) may be used to meet the government's ongoing obligations to citizen and creditors.

At the end of the current fiscal year, the Town of Burlington, CT is able to report positive balances in all categories of net position, for the government as a whole.

Governmental Activities. Governmental activities increased the Town of Burlington, CT's net position by \$1,475,828.

Major Revenue Factors Included:

- The collection of back taxes and percentage of current year taxes collected remained strong
- Accelerated payoffs of homeowner sewer assessments due to property sales
- Zoning and building permits increased due to new home construction, renovations, and accessory structures (decks sheds and pools)
- Conveyance taxes increased due to home and property sales

Eighty-one percent (81%) of the revenues of the Town were derived from property taxes, followed by fourteen percent (14%) from grants and contributions, then four percent (4%) from charges for services and one percent (1%) of the Town's revenue in the fiscal year was derived from investment and other income.

Management's Discussion and Analysis June 30, 2021

Major Expense Factors Include:

- The cost of education is the largest percentage of expenditures
- Increased cost for third-party paramedic services due to increased demand for services and a decrease in volunteer availability
- Increase funding reserves for Bridge/Road projects and BVFD apparatus

For Governmental activities, 72% of the Town's expenses relate to education, 6% relate to public safety, 11% relate to public works/operations, and remaining 11% relates to government and community services, administration, and other area.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Town of Burlington, CT uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Town of Burlington, CT's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Town of Burlington, CT's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town of Burlington, CT's governmental funds reported combined ending fund balances of \$13,882,846, an increase of \$910,970 in comparison with the prior year. 44.70% of this total amount constitutes *unassigned fund balance*, which is available for spending at the government's discretion.

The General Fund is the chief operating fund of the Town of Burlington, CT. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$6,206,064. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 16% percent of total General Fund expenditures.

The fund balance of the Town of Burlington, CT's General Fund increased by \$881,077 during the current fiscal year. Key factors in this increase are as follows:

- Revenue exceeded estimates by a material amount
- Actual expenditures less than budgeted

GENERAL FUND BUDGETARY HIGHLIGHTS

- Revenue from property taxes remained strong and higher than budgeted
- There were no uses of surplus

Management's Discussion and Analysis June 30, 2021

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. The Town of Burlington, CT's investment in capital assets for its governmental and business-type activities as of June 30, 2021, amounts to \$18,387,634 (net of accumulated depreciation). This investment in capital assets includes land and buildings, vehicles, machinery and equipment.

Major capital asset events during the current fiscal year included the following:

- Expenditures associated with Jerome Ave project and Town bridge repairs
- Purchase of Public Works, Police Department, Senior Bus and Fire Department Vehicles
- Purchase of 4.14 acres on Library Lane
- Replacement of the Town Hall roof

| | \$_ | 5,887,995 \$ | 6,308,577 | | | | | | |

The Town of Burlington, CT's total debt decreased by \$420,582 (6.67% percent) during the current fiscal year. Additional information on the Town of Burlington, CT's long-term debt can be found in Notes to Financial Statements E. Long-Term Debt on pages 36-38 of the town's financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The 2021/22 mill rate increased a tenth of a mill. This low mill increase was done in recognition of the impact of the current COVID pandemic on our citizens
- Education budget was slightly increased from FY21 to FY22
- The Town has confirmed a STEAP award of \$95,000 for the rehabilitation/replacement of the Foote Road Bridge
- A 50/50 Local Bridge Program Grant has been awarded for Covey Road Bridge and Main Street Bridge rehabilitation
- \$75,000 LOCIP grant to be used for road surface treatment
- The Town was awarded a grant under the American Rescue Plan Act (ARPA) in the amount of \$2.8 million. The town is expecting to receive the second half of the ARPA funds of \$1.4 million in FY22

All these factors were considered in preparing the Town of Burlington, CT's budget for the 2022 fiscal year.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the Town of Burlington, CT's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Board, Town of Burlington, 200 Spielman Highway, Burlington, CT 06013.

TOWN OF BURLINGTON, CONNECTICUT STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES GOVERNMENTAL FUNDS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2021

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities:

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because of the following:

Net change in fund balances - total governmental funds (Exhibit IV)

\$ 910,970

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay 2,210,341
Depreciation expense (1,704,993)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

| Property taxes collected after 60 days | (151,137) |
|--|-----------|
| Sewer collected after 60 days | (216,902) |
| Small cities loans collected after 60 days | (10,805) |
| Deferred outflows related to Pension | (58,206) |
| Deferred outflows related to OPEB | 8,873 |

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

| Principal payments on bonds payable | 310,000 |
|-------------------------------------|---------|
| Principal payments on sewer notes | 110,582 |

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

| Amortization of premium | 28,771 |
|---|-----------|
| Accrued interest | (70,881) |
| Change in total OPEB liability | (11,275) |
| Change in long-term compensated absences | (111,811) |
| Change in net pension liability | 1,142,950 |
| Change in Deferred inflows related to Pension | (925,209) |
| Change in Deferred inflows related to OPEB | 14,560 |

Change in Net Position of Governmental Activities (Exhibit II) \$ 1,475,828

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Town of Burlington, Connecticut (the Town) was incorporated in 1806. It operates under an elected, five-member Board of Selectmen and an elected, seven-member Board of Finance form of government and provides the following services: general government, public safety, public works, public health and welfare, culture, recreation, library, and water and sewer utilities. Educational services are provided by Regional School District Number 10 (the District), of which the towns of Burlington and Harwinton are members. Town appropriations to the school district are determined by a separate taxpayer approved budget and percentage of Burlington residents attending the District's schools.

The legislative power of the Town is vested in the Town Meeting. The First Selectman is the chief executive officer and budget making authority of the Town. The Board of Finance is responsible for revising the proposed budget and submitting the final budget to the Town Meeting. The Board of Finance is also responsible for establishing the annual tax rate. The Town has the power to incur indebtedness by issuing bonds or notes as provided by the Connecticut General Statutes.

Board of Selectmen may enact, amend or repeal ordinances and resolutions. The Board of Finance is responsible for financial and taxation matters as prescribed by Connecticut General Statutes, including presenting fiscal operating budgets for Town Meeting approval.

Accounting principles generally accepted in the United State of America require that the reporting entity include the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. A government is financially accountable for a legally separate organization if it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the government. These criteria have been considered and have resulted in the inclusion of the fiduciary component units as detailed below.

Fiduciary Component Units

The Town has established a single-employer Public Retirement Systems (PERS) plan to provide retirement benefits primary to employees and their beneficiaries. The Town performs the duties of a governing board for the Pension plans and is required to make contributions to the pension plan and impose its will.

The financial statements of the fiduciary component unit is reported as a Pension Trust fund in the fiduciary fund financial statements. Separate financial statements have not been prepared for the fiduciary component unit.

B. Basis of Presentation

The financial statements of the Town have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Town's accounting policies are described below.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, including fiduciary component units, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements.

Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Property taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. In determining when to recognize intergovernmental revenues (grants and entitlements), the legal and contractual requirements of the individual programs are used as guidance. Revenues are recognized when the eligibility requirements have been met. All other revenue items are considered to be measurable and available only when cash is received by the Town.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are charges to customers for services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed. Unrestricted resources are used in the following order: committed, assigned then unassigned.

The Town reports the following major governmental funds:

- The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The American Rescue Plan Act Fund is a fund that accounts for the American Rescue Plan Act of 2021 grant.
- The Bridges and Road Repair Fund accounts for the Town portion of bridge and road repairs.
- The Monce Road Fire Department Building Fund accounts for increased bond servicing costs associated with the overlap of a final payment of an old bond and new bond issuance.

Additionally, the Town reports the following fund types:

- The Enterprise Funds are used to account for activities of the Senior Housing Fund which accounts for rent revenue and expenses for the Evergreens Senior Housing and the Water Fund which accounts for water sales and expenses.
- The *Pension Trust Fund* is used to account for resources held in trust for participants in the Town's pension plan.
- The *Private Purpose Trust Fund* is used to account for the Collins Trust which benefits inhabitants of the Town of Burlington who are in need of support or of care in illness.
- The Custodial Fund is used to account for activities of the 5k Run Walk Fund.

C. Cash and Cash Equivalents

The Town's cash and cash equivalents consist of all cash on hand, checking, savings, money market accounts and certificates of deposit with an original maturity of 90 days or less.

D. Investments

Investments are stated at fair value.

E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectible amounts.

The Town's pension plan provides participant loans in accordance with the parameters of the plan. Loans made by the Town under the program bear an interest rate based on commercial loan rates. These loans become due and payable through biweekly payroll deduction according to an amortization schedule provided by the pension actuary. The Plan records loans receivable at the time the loan proceeds are advanced, and such amounts are reported net of an allowance for uncollectible amounts.

F. Capital Assets

Capital assets, which include, land, construction in progress, buildings and improvements, machinery and equipment, vehicles, land improvements, and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. For governmental activities, capital assets are defined by the government as assets with an initial individual cost of more than \$10,000 and an estimated useful life of two years. For business-type activities, capital assets are defined by the government as assets with an initial individual cost of more than \$5,000 and an estimated useful life of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, equipment and infrastructure of the Town is depreciated using the straight-line method over the following estimated useful lives.

| Assets | Years | |
|---------------------------|-------|--|
| Infrastructure | 20 | |
| Building and improvements | 20-40 | |
| Land improvements | 20 | |
| Machinery and equipment | 3-20 | |
| Vehicles | 5 | |

G. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town reports deferred outflows related to pension and OPEB in the government-wide statement of net position. A deferred outflow of resources related to pension and OPEB results from differences between expected and actual experience, changes in assumptions or other inputs, and difference between projected and actual earnings on investments. These amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension and OPEB plans (active employees and inactive employees).

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The Town reports deferred inflows of resources for pension and OPEB in the government-wide statement of net position. A deferred inflow of resources related to pension and OPEB results from differences between expected and actual experience and changes in assumptions or other inputs. These amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension and OPEB plans (active employees and inactive employees). For governmental funds, the Town reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from property taxes and sewer charges. These amounts are deferred and recognized as an inflow of resources (revenue) in the period in which the amounts become available.

H. Compensated Absences

Employees accrue vacation and sick leave based upon length of employment. Under certain union contracts, the Town employees' unused vacation can be carried over to the next year within certain limits and be paid upon death, retirement, or termination. Compensated absences are accrued when incurred in the government-wide, proprietary or fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

I. Net Pension Liability (Asset)

The net pension liability (asset) is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension liability (asset) is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

J. Total Other Postemployment Benefits Other than Pensions (OPEB) Liability

The total OPEB liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service. The total OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year and no later than the end of the current fiscal year, consistently applied from period to period.

K. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

L. Equity

Equity in the government-wide financial statements is defined as "net position" and is classified in the following categories:

Net Investment in Capital Assets

This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted

Restrictions are externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted

This component of net position consists of amounts that do not meet the definition of "restricted" or "net investment in capital assets."

The equity of the fund financial statements is defined as "fund balance" and is classified in the following categories:

Nonspendable Fund Balance

This represents amounts that cannot be spent due to form (e.g., inventories and prepaid amounts).

Restricted Fund Balance

This represents amounts constrained for a specific purpose by external parties, such as grantors, creditors, contributors, or laws and regulations of their governments.

Committed Fund Balance

This represents amounts constrained for a specific purpose by a government using its highest level of decision-making authority (Town of Burlington Board of Finance). Amounts remain committed until action is taken by the Board of Finance (resolution) to remove or revise the limitations.

Assigned Fund Balance

This includes amounts constrained for the intent to be used for a specific purpose by the Board of Finance that has been delegated authority to assign amounts by the Town Charter.

Unassigned Fund Balance

This represents fund balance in the General Fund in excess of nonspendable, restricted, committed and assigned fund balance. If another governmental fund has a fund balance deficit, it is reported as a negative amount in unassigned fund balance.

The Town has a policy to maintain a minimum combined balance of the assigned and unassigned fund balances of 12% of the following fiscal year's budgeted expenditures as of June 30th of each fiscal year.

M. Property Taxes

Property taxes are assessed as of October 1 and are levied and billed on the following July 1. Real estate and personal property taxes are due in two installments, July 1 and the following January 1. Motor vehicle taxes are payable on July 1 and supplemental motor vehicle taxes are payable on January 1. Interest at the rate of 1.5% per month accrues on all overdue taxes. Assessments for real and personal property, excluding motor vehicles, are computed at 70% of appraised market value. A lien is placed on the property if real estate taxes are unpaid as of May 15 following the payable date. The Town establishes an allowance for doubtful accounts based on historical collections, experience and other factors.

Property tax revenues are recognized when they become available. Available means due or past due and receivable within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The Town defines the current period to mean within 60 days after year end. Property taxes receivable not expected to be collected during the available period are reflected as a deferred inflow in the fund financial statements. The entire receivable is recorded as revenue in the government-wide financial statements. Property taxes collected prior to June 30 that are applicable to the subsequent years' assessment are reflected as a deferred inflow in both the fund financial statements and the government-wide financial statements.

N. Sewer User Charges and Assessments

Upon completion of sewer projects, sewer assessments are levied and assessed to the users. User charges and assessments are due and payable as of May 1 following the levy, but may be paid in installments with interest over the life of the related bond issuance. The Town establishes an allowance for doubtful accounts based on historical collections, experience and other factors. All properties are liened until the assessment is paid in full.

O. Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

P. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is January 10, 2022.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The annual budget is prepared by the Board of Finance and employed for management control of the General Fund.

The budget is adopted via Town Meeting. The Town adheres to the following procedures in establishing the budgetary data included in the General Fund financial statements:

- A proposed operating budget is submitted for the fiscal year commencing July 1 to a public budget hearing, at which taxpayer comments are obtained. The Board of Finance then prepares the recommended Town budget, which it presents at the annual Town Meeting held on the first Tuesday in June. The operating budget includes proposed expenditures and the means of financing them.
- Expenditures are budgeted by function, department and object. Management may not exceed appropriations at the department level and must seek approval from the Board of Finance to reassign resources within a department.
- The legal level of budgetary control (the level at which expenditures may not exceed appropriations) is the department level. The Board of Finance is authorized to transfer budgeted amounts within and between departments and objects.
- Any additional appropriations exceeding 0.1% of the annual budget shall become effective only
 after approval by the Board of Finance and passage at a Town Meeting. Exceptions to that rule
 are transfers from the contingency expenditure line item and the Municipal Reserve Fund may
 be made by the Board of Finance upon the recommendation from the Town Treasurer.

- During the year, there were no additional appropriations.
- Formal budgetary integration is employed as a management control device during the year.
- Encumbrances are not utilized.
- All unexpended appropriations lapse at year end, except capital projects.

B. Deficit Fund Equity

For the year ended June 30, 2021, the following funds had deficit balances:

Monce Road FD Building Fund

\$

60

These amounts will be funded through bonds, contributions and future revenues.

3. DETAILED NOTES ON ALL FUNDS

A. Cash, Cash Equivalents and Investments

The deposit of public funds is controlled by the Connecticut General Statutes (Section 7-402). Deposits may be made in a "qualified public depository" as defined by the Statutes or, in amounts not exceeding the Federal Deposit Insurance Corporation insurance limit, in an "out of state bank" as defined by the Statutes, which is not a "qualified public depository."

The Connecticut General Statutes (Section 7-400) permit municipalities to invest in: 1) obligations of the United States and its agencies; 2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof; and 3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. Other provisions of the Statutes cover specific municipal funds with particular investment authority. The provisions of the Statutes regarding the investment of municipal pension funds do not specify permitted investments. Therefore, investment of such funds is generally controlled by the laws applicable to fiduciaries and the provisions of the applicable plan.

The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the State Short-Term Investment Fund (STIF). This investment pool is under the control of the State Treasurer, with oversight provided by the Treasurer's Cash Management Advisory Board, and are regulated under the State Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized-cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares.

Deposits

Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, \$14,923,022 of the Town's bank balance of \$16,529,972 was exposed to custodial credit risk as follows:

| Uninsured and uncollateralized | \$ 13,367,307 |
|--|------------------|
| Uninsured and collateral held by the pledging bank's | |
| trust department, not in the Town's name | 1,555,715 |
| Total Amount Subject to Custodial Risk | \$ 14,923,022 |

Investments

As of June 30, 2021, the Town had the following investments:

| | | | | Investment Maturities (Ye | | | | rears) | | |
|-------------------------------|----------|-----------|-------|---------------------------|-----|-----------|-----|-----------------|--|--|
| Investment Type | <u> </u> | Value | _ | Less Than 1 | _ | 1 - 10 | | More than 10 | | |
| Interest-bearing investments: | | | | | | | | | | |
| Certificates of Deposit | \$ | 946,468 | \$ | 252,044 | \$ | 694,424 | \$ | | | |
| Municipal Bonds | | 327,666 | | | | 173,605 | | 154,061 | | |
| Corporate Bonds | _ | 590,624 | | | _ | 590,624 | _ | | | |
| Total | | 1,864,758 | \$_ | 252,044 | \$_ | 1,458,653 | \$_ | 154,061 | | |
| Other investments: | | | | | | | | | | |
| Mutual Funds | \$ | 373,481 | | | | | | | | |
| Common Stock | _ | 3,965,766 | | | | | | | | |
| Total Investments | \$ | 6,204,005 | _ | | | | | | | |

Investment Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value if its investment or collateral securities that are in the possession of an outside party.

Credit Risk

The Town has no investment policy that would limit its investment choices due to credit risk other than State statutes governing investments in obligations of any state or political subdivision or in obligations of the State of Connecticut or political subdivision.

| Average Rating | | Corporate Bonds | Government Bonds |
|-------------------|-----|--------------------|---------------------|
| | | | |
| Aa1 | \$ | 54,748 | \$ |
| Aa2 | | 109,155 | |
| A1 | | 105,650 | |
| A2 | | | 56,541 |
| A3 | | 54,089 | 66,823 |
| AA+ | | | 55,018 |
| AA | | | 99,042 |
| A- | | | 50,242 |
| Baa1 | | 79,576 | |
| Baa2 | _ | 187,406 | |
| | | | |
| | \$_ | 590,624 | \$ 327,666 |

Concentration of Credit Risk

The Town places no limit on the amount invested in any one issuer.

Interest Rate Risk

The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

The Pension Trust Fund is also authorized to invest in equities and bonds. The investments of this fund are held in trust by a trustee bank, which executes investment transactions under the direction of the pension plan's investment manager.

Fair Value

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements).

The Town has the following recurring fair value measurements as of June 30, 2021:

| | | June 30, Fair Value Measurements U | | | Jsing | | | |
|---------------------------------------|-----|------------------------------------|-----|-----------|-------|---------|-----|---------|
| | _ | 2021 | _ | Level 1 | | Level 2 | _ | Level 3 |
| Investments by fair value level: | | | | | | | | |
| Municipal Bonds | \$ | 327,666 | \$ | 327,666 | \$ | | \$ | |
| Corporate Bonds | | 590,624 | | | | 590,624 | | |
| Mutual Funds | | 373,481 | | 373,481 | | | | |
| Common Stock | _ | 3,965,766 | _ | 3,965,766 | . – | | _ | |
| Total Investments by Fair Value Level | _ | 5,257,537 | \$_ | 4,666,913 | \$_ | 590,624 | \$_ | |
| Not included above: | | | | | | | | |
| Certificates of Deposit | _ | 946,468 | i | | | | | |
| Total Investments | \$_ | 6,204,005 | ł | | | | | |

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

B. Receivables

Receivables by type at year end for the Town's government-wide financial statements, including the applicable allowances for uncollectible accounts, are as follows:

| - | General Fund | Senior Housing Fund | Water Fund | Nonmajor and Other Funds | Total |
|------------------------------|-----------------|---------------------------|---------------|--------------------------------|----------|
| Property taxes receivable \$ | 293,065 \$ | \$ | \$ | \$ | 293,065 |
| Interest on property taxes | 117,994 | · | · | • | 117,994 |
| Assessments | 261,031 | | | | 261,031 |
| Interest on assessments | 21,863 | | | | 21,863 |
| Grants and contracts | 7,307 | | | 183,364 | 190,671 |

D. Interfund Receivables, Payables and Transfers

The composition of interfund balances as of June 30, 2021 is as follows:

| Receivable Fund | Payable Fund | | Amount |
|------------------------------|--|---------|---------------------------------|
| General Fund | Sewer Authority Nonmajor Governmental Funds | \$ _ | 1,094 37,554 38,648 |
| Bridges and Road Repair Fund | Monce Road FD Building Fund General Fund | _ | 732,841 341,188 1,074,029 |
| Nonmajor Funds | General Fund | _ | 462,165 |
| Pension Trust Fund | General Fund | _ | 44,000 |
| Total | | \$_ | 1,618,842 |

The outstanding balances between funds result mainly from the time lag between the dates that: 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made.

TOWN OF BURLINGTON, CONNECTICUT NOTES TO FINANCIAL STATEMENTS JUNE 30, 2021

The transfers that occurred during the year are as follows:

| | | | | Transfers In | | | |
|---------------------------|-----|-----------------|----|------------------------------------|---------------------------------------|-----|---------------------------|
| | _ | General Fund | _ | Bridges and Road Repair Fund | Nonmajor Governmental Funds | - | Total Transfers Out |
| Transfers out: | | | | | | | |
| General Fund | \$ | | \$ | 341,188 | \$ 554,596 | \$ | 895,784 |
| Monce Road FD Fund | | | | 732,841 | | | 732,841 |
| Nonmajor Enterprise Funds | _ | 70,000 | | | | | 70,000 |
| Total Transfers In | \$_ | 70,000 | \$ | 1,074,029 | \$ 554,596 | \$_ | 1,698,625 |

Transfers are used to move funds from the General Fund to the other funds in accordance with budget authorizations. Transfers from the nonmajor Enterprise Funds to the General Fund was for payments on long term debt.

E. Long-Term Debt

Changes in Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2021 was as follows:

| | _ | Beginning Balance | | Additions | _ | Reductions | _ | Ending Balance | _ | Due Within One Year |
|--|-----|----------------------|----|-----------|-----|------------|-----|-------------------|-----|------------------------|
| Governmental Activities: | | | | | | | | | | |
| Bonds payable: General obligation bonds | \$ | 5,465,000 | ď | | \$ | 310,000 | ď | 5,155,000 | ф | 310,000 |
| Unamortized premium | Φ_ | 144,490 | Φ_ | | Φ_ | 28,771 | Φ_ | 115,719 | Φ_ | 310,000 |
| Total bonds payable | _ | 5,609,490 | | - | _ | 338,771 | | 5,270,719 | | 310,000 |
| State of CT sewer notes | | 843,577 | | | | 110,582 | | 732,995 | | 112,814 |
| Compensated absences | | 82,714 | | 111,811 | | | | 194,525 | | 169,236 |
| Net pension liability | | 449,620 | | | | 449,620 | | - | | |
| Total OPEB liability | _ | 101,179 | - | 11,275 | _ | | _ | 112,454 | _ | 920 |
| Total Governmental Activities | | | | | | | | | | |
| Long-Term Liabilities | \$_ | 7,086,580 | \$ | 123,086 | \$_ | 898,973 | \$_ | 6,310,693 | \$_ | 592,970 |

For the governmental activities, compensated absences, net pension liability and total OPEB liability are generally liquidated by the General Fund. The Senior Housing Fund reimburses the General Fund for a portion of the general obligation debt service payments.

TOWN OF BURLINGTON, CONNECTICUT NOTES TO FINANCIAL STATEMENTS JUNE 30, 2021

General obligation bonds currently outstanding are as follows:

| Description | Date of Issue | Date of Maturity | Interest Rate (%) | _ | Amount of Original Issue | | Balance Outstanding June 30, 2021 |
|--|----------------|---------------------|----------------------|----|--------------------------------|----|---|
| Governmental Activities | | | | | | | |

| | \$_ | 5,155,000 | \$_ | 1,304,475 | \$_ | 732,995 | \$ | 46,730 |

The Town is subject to the General Statutes of Connecticut, which limits the amount of debt outstanding at June 30, 2021 to the following:

Total debt outstanding may not exceed seven times annual receipts from taxation of \$222,344,094.

Overlapping Debt

The Town is a member of Regional School District No. 10 (the District), which provides education facilities for grades kindergarten through 12 for the Towns of Burlington and Harwinton. As of June 30, 2021, the outstanding bonded indebtedness of the District was \$10,260,000. The Town's share will be approximately 66.28% of the balance, or \$6,800,328. This debt is a general obligation of the District and its member towns.

Authorized but Unissued Bonds

The Town did not have any authorized but unissued bonds at June 30, 2021.

Fund Balance

The components of fund balance for the governmental funds at June 30, 2021 are as follows:

4. EMPLOYEE RETIREMENT PLANS

A. Town of Burlington Employees' Pension Plan

The Town of Burlington Employees' Pension Plan is a single-employer defined benefit plan that is administered by the Town of Burlington. Benefits are established and may be amended by the Plan Trustees, which consist of the First Selectman and the Treasurer. The Plan is a contributory defined benefit plan known as a "Prototype Split Funded Defined Benefit Pension Plan."

Plan Description and Benefits Provided

The Plan provides retirement, disability and death benefits for all eligible full-time employees of the Town and is included as a fiduciary fund of the Town. Town Hall and Library full-time employees are eligible to participate on the anniversary date nearest the completion of one year of service and upon attaining age 21. Highway department full-time employees hired on or before July 1, 2014 are eligible to participate on the anniversary date nearest the completion of one year of service and upon attaining age 21. The plan provides a monthly benefit equal to the greater of 2% of compensation times all years of service (not to exceed 40 years), or not less than the individual participant's benefit as provided on July 1, 1984. The basis of the benefit is life annuity. Benefits are established and may be amended by the Trustees. In most cases, upon retirement by the eligible employee, the pension fund purchases an annuity from an insurance company, which is then responsible for benefit payments to the retiree and the retiree is no longer part of the Town's pension plan.

The membership of the plan consisted of the following at July 1, 2021:

| Inactive plan members or beneficiaries currently receiving benefits | 5 |
|---|----|
| Inactive plan members entitled to but not yet receiving benefits | 3 |
| Active plan members | 16 |
| | |
| Total | 24 |

Contributions

Contribution requirements and benefit provisions were established and may be amended by the Trustees

Member

Highway department employees are required to contribute 5% of compensation as their share of the total contribution. Town Hall and Library employees hired on or before July 1, 2014 are required to contribute 5.5% of compensation as their share of the total contribution. Town Hall and Library employees hired after July 1, 2014 are required to contribute 6.5% of compensation as their share of the total contribution. The Town established contribution rates based on an actuarially determined rate recommended by and independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability.

Employer

The Town is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members.

Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. Benefit payments and refunds are payable when due and payable in accordance with the terms of the plan. Plan administration costs are budgeted from the Town's General Fund.

Method Used to Value Investments

All assets are valued at fair value. All investments are invested in municipal bonds, corporate bonds, common stock and equity mutual funds. Investment income is recognized as earned.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Trustees. It is the policy of the Trustees to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

The following was the Trustee's adopted asset allocation policy as of June 30, 2021:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|-------------------|-------------------|--|
| Equities Bonds | 70 30 % | 6.50% |
| Total | 100_% | |

Rate of Return

For the year ended June 30, 2021, the annual money-weighted rate of return on investments, net of investment expense, was 28.00%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

TOWN OF BURLINGTON, CONNECTICUT NOTES TO FINANCIAL STATEMENTS JUNE 30, 2021

Net Pension Liability (Asset) of the Town

The components of the net pension liability (asset) of the Town at June 30, 2021 were as follows:

| Total pension liability | \$ 3,519,224 |
|---|-----------------|
| Plan fiduciary net position | 4,066,679 |
| | |
| Net pension liability (asset) | \$ (547,455) |
| | |
| Plan fiduciary net position as a | |
| percentage of the total Pension liability | 115.56% |

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2021, using the following actuarial assumptions, applied to all periods included in the measurements:

Inflation

None (included in investment return)

4.0 Percent, average, including inflation

7.0% pre-retirement; 6.0% post-retirement

Mortality rates were based on the RP-2008 Mortality Table. An experience study has not been performed.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2021 (see the discussion of the pension plan's investment policy) are as follows: Equities 6.5% and Fixed Income 2%.

Discount Rate

The discount rate used to measure the total pension liability was 7.00% for June 30, 2021. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability (Asset) of the Town

| Emplo | ovees' | Pension | Plan |
|-------|--------|---------|------|
|-------|--------|---------|------|

| | Increase (Decrease) | | | |
|--|---------------------|----------------|-------------------|--|

| Net investment income | | 882,792 | (882,792) | |
| Benefit payments, including refund to employee contributions | (211,092) | (211,092) | - | |
| Net changes | (29,296) | 944,406 | (973,702) | |
| Balances as of June 30, 2021 | \$ 3,519,224 \$ | 4,066,679 \$ | (547,455) | |

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Town, calculated using the current discount rate, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

| | | Current | | |
|---|----|--------------|--------------|-----------|
| | | 1% | Discount | 1% |
| | | Decrease | Rate | Increase |
| | | (6.00%) | (7.00%) | (8.00%) |
| | _ | | | |
| Employees Net Pension Liability (Asset) | \$ | (317,132) \$ | (547,455) \$ | (751,248) |

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2021, the Town recognized pension expense of \$183,243. At June 30, 2021, the Town reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

| | _ | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|----|--------------------------------------|---|
| Differences between expected and actual experience Net difference between projected and | \$ | 53,103 | \$ 602 625 |
| actual earning on pension plan investments Total | \$ | 53,103 | \$ 683,635 683,635 |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending June 30

| 2022 | \$ | (131,417) |

B. Town of Burlington Constable Pension Plan

The Town of Burlington Constable Pension Plan is a single-employer defined benefit plan that is administered by the Town of Burlington. Benefits are established and may be amended by the Plan Trustees, which consist of the First Selectman and the Treasurer. The Plan is a contributory defined benefit plan known as a "Prototype Split Funded Defined Benefit Pension Plan."

TOWN OF BURLINGTON, CONNECTICUT NOTES TO FINANCIAL STATEMENTS JUNE 30, 2021

Plan Description and Benefits Provided

The Plan provides retirement, disability and death benefits for all eligible full-time constables of the Town and is included as a fiduciary fund of the Town. All full-time constables are eligible to participate on the plan anniversary date nearest the completion of two years of service and upon attaining age 21. The plan provides a monthly benefit equal to the greater of 1.9% of compensation times all years of service (not to exceed 40 years), or not less than the individual participant's benefit as provided on July 1, 1984. The basis of the benefit is Ten Years Certain and life annuity. Benefits are established and may be amended by the Trustees. In most cases, upon retirement by the eligible employee, the plan purchases an annuity from an insurance company, which is then responsible for benefit payments to the retiree and the retiree is no longer part of the Town's pension plan.

The membership of the plan consisted of the following at July 1, 2021:

| Inactive plan members or beneficiaries currently receiving benefits | 1 |
|---|---|
| Inactive plan members entitled to but not yet receiving benefits | 0 |
| Active plan members | 6 |
| | |
| Total | 7 |

Contributions

Contribution requirements and benefit provisions were established and may be amended by the Trustees

Member

Constables are required to contribute 6% of compensation as their share of the total contribution. The Town established contribution rates based on an actuarially determined rate recommended by and independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability.

Employer

The Town is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members.

Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. Benefit payments and refunds are payable when due and payable in accordance with the terms of the plan. Plan administration costs are budgeted from the Town's General Fund.

Method Used to Value Investments

All assets are valued at fair value. All investments are invested in government bonds, corporate bonds common stock, and equity mutual funds. Investment income is recognized as earned.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Trustees. It is the policy of the Trustees to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

The following was the Trustee's adopted asset allocation policy as of June 30, 2021:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|-------------------|-------------------|--|
| Equities Bonds | 70 30 % | 6.50% 6.2.00% |
| Total | 100 % | , b |

Rate of Return

For the year ended June 30, 2021, the annual money-weighted rate of return on investments, net of investment expense, was 28.00%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability of the Town

The components of the net pension liability of the Town at June 30, 2021 were as follows:

| Total pension liability | \$ | 1,304,363 |
|---|----|-----------|
| Plan fiduciary net position | _ | 1,450,237 |
| Net pension liability (asset) | \$ | (145,874) |
| rect perision hability (asset) | Ψ_ | (140,014) |
| Plan fiduciary net position as a | | |
| percentage of the total Pension liability | | 111.18% |

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2021, using the following actuarial assumptions, applied to all periods included in the measurements:

| Inflation | None (included in investment return) |
|---------------------------|---|
| Salary increases | 4.0 Percent, average, including inflation |
| Investment rate of return | 7.0% pre-retirement; 6.0% post-retirement |

TOWN OF BURLINGTON, CONNECTICUT NOTES TO FINANCIAL STATEMENTS JUNE 30, 2021

Mortality rates were based on the RP-2008 Mortality Table. An experience study has not been performed.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2021 (see the discussion of the pension plan's investment policy) are as follows: Equities 6.5% and Fixed Income 2%.

Discount Rate

The discount rate used to measure the total pension liability was 7.00% for June 30, 2021. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability (Asset) of the Town

| | | Increase (Decrease) | | | |
|--|-----|---------------------|----------------|-------------------|--|

D. Defined Contribution Plan

The Town adopted and administers a single-employer defined contribution pension plan – The Town of Burlington 401(k) Highway. Employees may make elective deferrals to the plan and are eligible for matching contributions from the Town. Employees are vested in the plan after five years. Forfeitures may reduce future Town contributions or can be used to pay plan expenses. The Plan currently has six participants and the expense to the Town for this plan during the year ended June 30, 2021 was \$34,849.

5. OTHER POST-EMPLOYMENT BENEFIT PLANS

A. Town and Board of Education Program

Plan Description

The Town provides eligible retirees with other post-employment benefits (OPEB Program) for medical coverage through the Town's group health insurance plans, which cover both active and retired members. Benefit and contribution provisions are established through negotiations between the Town and the union representing Town employees, and are renegotiated between three-year and five-year bargaining periods.

The Town currently pays for postemployment health care benefits on a pay-as-you-go basis. As of June 30, 2021, the Town has not established a trust fund to irrevocably segregate assets to fund liability associated with the postemployment benefits, which would require the reporting of a trust fund in accordance with GASB guidelines.

Police retirees hired before July 1, 2010 receive health insurance funded by the Town at 91.5% of the premiums until age 65. The Town pays 85% of Medicare premiums for post-age 65 Police retirees. Retirees may purchase coverage for their spouse at their sole expense. The Town does not cover Medicare premiums of post-age 65 spouses of Police retirees. Police department retirees hired after July 1, 2010 may purchase coverage for the retiree and the retiree's spouse at their sole expense. Town Hall department retirees hired before October 26, 2010 receive health insurance funded by the Town at the same percentage that then-current employees are receiving. Town Hall department retirees hired after October 26, 2010 may purchase coverage for the retiree and the retiree's spouse at their sole expense, to age 65. The benefit is available to Police and Town Hall department retirees at age 60. Highway department retirees hired before July1, 2010 receive health insurance funded by the Town at the same percentage as it is paying for current employees until age 65. The benefit is available to Highway department retirees at age 62. Highway department retirees hired after July 1, 2010 may purchase coverage for the retiree and the retiree's spouse at their sole expense. The Town does not cover spouses of Highway or Town Hall retirees. Benefit provisions and funding requirements may be amended by the Board of Selectmen.

Funding Policy

The Town appropriates funds annually for the costs associated with this retirement benefit and provides funding for the expenditures on a pay-as-you-go basis through the General Fund. Expenditures for premiums for post-employment health care benefits are recognized on the accrual basis.

| Active plan members | 35 |
| Total | 36 |

Total OPEB Liability

The Town's total OPEB liability of \$112,454 was measured as of June 30, 2021 and was determined by an actuarial valuation dated July 1, 2019, rolled forward to June 30, 2021.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the July 1, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

| Inflation rate | 2.50% |
|---------------------|--|
| Discount rate | 2.16% |
| Medical trend rates | 7.00% decreasing 0.5% each year to an ultimate |
| | rate of 4.50% per year rate for 2025 and later |

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Index as of the measurement date. This represents municipal bond trends based on a portfolio of 20 general obligation bonds that mature in 20 years. Mortality rates were based on RPH-2014 headcount-weighted total dataset fully generational mortality projected table with projection scale MP-2019.

Changes in the Total OPEB Liability

| 2026 | (8,757) |
| Thereafter | (309) |
| | |
| | \$ (57,517) |

6. OTHER INFORMATION

A. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; error and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks did not exceed commercial insurance coverage during the three years ended June 30, 2021.

The Town's workers compensation policies are with CIRMA's guaranteed cost programs. The premium is subject to payroll audit at the close of the coverage period. CIRMA's Workers' Compensation Pool retains \$1,000,000 per occurrence.

B. Contingent Liabilities

There are various suits and claims pending against the Town, none of which, individually or in the aggregate, is believed by counsel to be likely to result in judgment or judgments that could materially affect the Town's financial position.

The Town has received state and federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for any expenditure disallowed under terms of the grant. Based on prior experience, Town management believes such disallowances, if any, will not be material.

TOWN OF BURLINGTON, CONNECTICUT NOTES TO FINANCIAL STATEMENTS JUNE 30, 2021

7. LANDFILL

The Town of Burlington stopped accepting solid waste at its landfill site in 1991. State and Federal laws and regulations require the Town to perform certain maintenance and monitoring functions at the landfill after the closure was completed. Monitoring and testing costs have averaged less than \$5,000 per year since 1991 and are budged annually in the General Fund. Any liability for landfill post closure is not considered to be material to these financial statements. However, due to changes in technology, laws or regulations, these costs may change in the future.

8. RESTATEMENTS

The Town previously reported the activities of the Recreation Board Fund, 5k Run/Walk Fund, Safe Harbor Fund, Building Department Bonds Fund, and the Special Purposes Trust Fund as fiduciary funds. As a result of implementation of GASB No. 84, Fiduciary Activities, as of July 1, 2020, the Town made the following reporting changes: The activities of the Safe Harbor Fund and the Building Department Bonds Fund are reported with General Fund activities; the activities of the Recreation Board Fund and Special Purposes Trust Fund are now reported as Special Revenue Funds and the 5K Run/Walk Fund is reported as a Custodial Fund.

Accordingly, as a result of these restatements, the Town restated the beginning assets and liabilities of the General Fund by \$63,513; increased beginning assets and fund balance / net position of the special revenue funds and governmental activities of \$100,109. The remaining assets of \$609 previously reported in the agency fund were recognized as assets and fund balance of the newly custodial fund.

In addition, the following adjustments were made to the financial statements:

Management concluded that certain funds were not previously included in the financial statements. As a result, as of July 1, 2020, the Food and Fuel Assistance Fund, Tavern Day Fund, Emergency Management Fund and Project Graduation Fund are now reported as Special Revenue Funds and the Cheer Fund is recorded with the General Fund.

The Town was incorrectly recognizing revenue in the Small Cities Fund in accordance with the modified accrual basis of accounting. In order to correct this, the fund balance of the small cities fund decreased by \$194,169 and liabilities increased by the same amount.

In the General Fund, sewer expenditures were incorrectly recorded in the current year. As a result, fund balance decreased \$134,419.

The Pension Trust fund's investments and net position were corrected to agree to the investment custodian's statements. Investments and net position decreased by \$57,000.
