

Town of Burlington Emergency Management

Residents with Disabilities Questionnaire

The Burlington Emergency Management Department is establishing a database of locations within town where there are people with disabilities in an effort to improve our response in the event of a disaster or crisis. By letting us know now that there are people with disabilities in the residence, office or other commercial building, that person's requirements can be planned for in advance of an incident. Participation in this exercise is voluntary.

Please note - An annual confirmation will be performed to verify that the information provided is still accurate. If no confirmation response is provided by the third request, this information will be permanently removed from the town database.
